

Section 10 – Transformers and Power Supplies

TRAN MP 3037

24 volt DC regulated output. Max 1 amp. 24VA . Will run a maximum of 8 feet of channel LEDS. Size 200mm long 75mm wide and 65 mm high.

TRAN MP 3137

12 volt DC regulated output. Max 1 amp 12VDC. For small jobs, lotus a couple of bulbs etc

TRAN MP 3244

24 volt DC output with spike protector. 80% efficiency regulated output. Max 2 amps. 48 VA. Will run a maximum of 16 feet of channeled. Supplied with power input cable. Size 155mm long 60mm wide and 37 mm high.

TRAN MP 3114

24 Volt DC output switch mode with output adjustment. 2 sets of output terminals. Open terminals and may require a terminal box for terminal protection depending on where they are installed. 150 VA maximum output and will run a maximum of 50 feet of Channel led. Size 199mm long 110mm wide and 50mm high.

Iron Core Transformers for Led Bulbs 12 volt

TRAN MP 3240

12 volt DC output with spike protector. 80% efficiency regulated output. Max 4 amps. 48 VA. Will run a maximum of 22 feet of channel led. Supplied with power input cable. Size 155mm long 60mm wide and 37 mm high.

TRAN MP 3110

12 Volt DC output switch mode with output adjustment. 2 sets of output terminals. Open terminals and may require a terminal box for terminal protection depending on where they are installed. 150 VA maximum output and will run a maximum of 75 feet of channel led. Size 199mm long 110mm wide and 50mm high.

Small transformers are available for bulbs and mini lights.
